

GLUED THEM DOWN

HOW A SKIPPER SAVED HIS SHIP FROM SAVAGES.

South Sea Island Natives Were Decidedly Up Against It When They Mixed Things with Capt. McCabe.

"It was when I was trading around the South sea islands that I had a narrow escape from a band of savages that were going to take my ship," said Capt. McCabe, the veteran sailor who has now settled ashore to pass his days in leisure, to a Seattle Post-Intelligencer man. "It came near having a serious ending for me, but I came out ahead after all.

"I was sailing in a pretty little schooner, the Mattie W., and we had a general cargo for trading. Setting on deck were about 20 cases of a glue that was never known to let go, but we couldn't sell a bit of it.

"Well, we got down to Milecello, one of the group of the New Hebrides, and there we anchored in Manley bay. The snowy sand of the beach was shaded by waving palms and the sheltered waters of the bay were warm and as clear as crystal. We lay there for a week resting up and cleaning up the ship. We had been trading for almost a year then and there was nothing left but the glue and that was piled alongside the companion way.

"Well, one afternoon I let all the crew go ashore, and they were inland or away swimming in the clear water. I lay down to have a snooze. Suddenly I was awakened by a sharp jolt and all around me were South sea savages. They were armed with spears, bows and arrows and stone tomahawks. Their actions were hostile and I saw right away that I was up against it. I was alone on the vessel with all these armed heathens.

"Just then I happened to touch one of those glue boxes and in a flash an idea came to me. There was a large bunch standing near the main life rail and I grabbed five bottles and threw them at that crowd of savages one after the other. The bottles were thin glass and every one broke. Then, before the savages could recover their wits, I started throwing more. The glass would break and the glue ran all over them. When they tried to walk the glass would cut their feet and in a few minutes I had that whole crowd of savages glued to the deck unable to move. The glue hardened almost instantly on touching the air and this was what saved me.

"When I saw that they were all caught I signaled for the crew to return and then we weighed anchor and put off for Charlotte, in the Gilbert Islands, where there were laborers wanted. I wasn't engaging in the slave trade, mind you, because these natives had come on board of their own free will and hadn't left.

"At Charlotte a planter offered to pry those savages loose from the deck and give \$1,000 to boot, and I let him do it. That planter also took all the rest of the glue that we had.

"That was one of the most fortunate voyages that ever I made."

Anxious to Oblige.

The manager of a telephone exchange recently gave employment as an operator to a young woman whose previous employment had been in a department store. The girl seemed so bright and willing and possessed such a clear and distinct voice that the manager resolved to give her a trial.

The newcomer, who was all amiability and willingness, rapidly learned her new duties, but one day an incident occurred that betrayed her department store training.

In answer to a ring she had asked sweetly: "Number, please?"

"Let me have 325," said the patron. "I am sorry that 325 is busy just now," said the girl, "but I can let you have 323 or 326."

How Flowers Were Named.

It is interesting to know how certain flowers got their names. Many were named after individuals. For instance, fuchsias were so called because they were discovered by Leonard Fuchs. Dahlias were named for Andrew Dahl, who brought them from Peru. The camellia was so called for a missionary named Kamel, who brought some magnificent specimens of the flower to France from Japan. He called it the rose of Japan, but his friends changed it to camellia. Magnolias were named in honor of Prof. Magnol De Montpelier, who first brought the beautiful trees to France from America and Asia. Because they tremble with the wind is the meaning of anemones. The Latin word to wash is lavare and lavender received its name because the Romans put the flowers into the water when they washed to perfume their hands.

Cause for Mourning.

Hewitt—Why does Gruett use mourning paper when he writes letters?
Jewitt—His mother-in-law has recovered.

Fruit acids will not stain goods dyed with PUTNAM FADELESS DYES, and the colors are bright and fast.

Every truth that comes home to us is a moral call, bidding us rise to a new position.—Goethe.

Garfield Tea—the indispensable laxative! Take it in the Spring; it purifies the blood, cleanses the system, eradicates disease. It is made wholly of simple herbs. Guaranteed under the Pure Food and Drugs Law.

Increase in Savings Deposits.

In 1906 the resources of the savings banks of the state of New York reached \$1,465,000,000, an increase of \$59,000,000 in only one year.

Defiance Starch is the latest invention in that line and an improvement on all other makes; it is more economical, does better work, takes less time. Get it from any grocer.

Arizona's Copper Production.

In 1906 Arizona had the largest increase in production of copper of all the copper states. The output was 284,228,252 pounds, against 239,843,000 pounds in 1905.

In a Pinch, Use ALLEN'S FOOT-EASE. A powder. It cures painful, smarting, nervous feet and ingrowing nails. It's the greatest comfort discovery of the age. Makes new shoes easy. A certain cure for sweating feet. Sold by all Druggists, 25c. Accept no substitute. Trial package, FREE. Address A. S. Olmsted, Le Roy, N. Y.

Mrs. Partington Notices.

"It's a burning shame, but nevertheless a cold fact," said Mrs. Malaprop, in an interval of gossip at a card party the other evening. "My dear," said Mrs. Partington, from the other side of the table, "you seem to be getting your reservoirs mixed."

The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. Its great strength as a stiffener makes half the usual quantity of Starch necessary, with the result of perfect finish, equal to that when the goods were new.

A Police Force of Widows.

The Ghent communal council have a proposal before them to include women in the police force. According to the scheme the policewomen will not wear a uniform. They will be recruited from women between the ages of 40 and 50, and they must be widows or spinsters. It is intended to try the experiment with a dozen women.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

Carpets from Paper.

The proprietors of an Austrian carpet factory at Maffersdorf are stated to have acquired German patents which embody a method of manufacturing carpets or floor coverings from paper. The new material can be made in all colors, is washable and will probably prove itself a rival to linoleum.

SLEEP BROKEN BY ITCHING.

Eczema Covered Whole Body for a Year—No Relief Until Cuticura Remedies Prove a Success.

"For a year I have had what they call eczema. I had an itching all over my body, and when I would retire for the night it would keep me awake half the night, and the more I would scratch, the more it would itch. I tried all kinds of remedies, but could get no relief.

"I used one cake of Cuticura Soap, one box of Cuticura, and two vials of Cuticura Resolvent Pills, which cost me a dollar and twenty-five cents in all, and am very glad I tried them, for I was completely cured. Walter W. Paglusich, 207 N. Robey St., Chicago, Ill., Oct. 8 and 16, 1906."

Friendship is the only thing in the world concerning the usefulness of which all mankind are agreed.—Cicero.

Women Avoid Operations

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes:

Dear Mrs. Pinkham:—"Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.
